# NEWTOWN BOARD OF EDUCATION <br> MONTHLY FINANCIAL REPORT <br> FEBRUARY 28, 2023 

## SUMMARY

The eighth financial report for the year continues to provide year to date expenditures, encumbrances and information for anticipated obligations. Many of the accounts within our major objects have been forecasted as "full budget spend" in order to more accurately project an estimated year-end balance. These balances are monitored closely and adjusted each month in order to capture any changes and fluctuations that occur throughout the year.

During the month of February, the district spent approximately $\$ 5.8 \mathrm{M}$ for all operations. About $\$ 4.2 \mathrm{M}$ was spent on salaries with the remaining balance of $\$ 1.6 \mathrm{M}$ on all other objects. All expenditures appear to be within normal limits at this time.

The change over the last month's year-end projection has resulted in an increase of \$98,156 now showing a total projected balance of $\$ 491,314$.

## EXCESS COST GRANT

The December excess cost grant submission was reviewed by the state and recalculated with adjustments of less than $\$ 5,000$. The state's reconciliation of this grant came in at $\$ 1,825,987$ and we have received $75 \%$ of this projection which has been included in this report (see last page of the financial report). The grant reimbursement rate for eligible expenses was calculated by the state at $70 \%$ (this grant has never been funded at $100 \%$ ). However, there has been discussion around legislation that will address this funding gap; thus, potentially increasing Newtown's reimbursement by $15 \%$. We are still waiting for information from the state on this topic and will keep the board apprised of any changes that may affect this grant.

The second submission of the excess cost grant was due to the state on March $1^{\text {st }}$. Minor adjustments were made to this submission, capturing changes that occurred between December through February. The changes were for various reasons; such as, reduction/increase in services for students, funding caps for locations, attendance and changes in transportation. The state will review our submission and return their reconciliation to us sometime in April. The revised estimate is now at $\$ 1,791,440$.

## MAJOR MOVERS

## SALARY OBJECT

The overall salary object currently displays a positive position of $\$ 454,974$, decreasing slightly by $\$ 21,330$ over the prior month.

This area of our budget continues to drive the projected year-end balance. At this time, we are anticipating that many of our unfilled positions that follow the student year; such as, paraprofessionals and behavioral therapists will most likely remain open.

OTHER PURCHASED SERVICES - the overall position of this object is displaying a negative balance of $-\$ 407,654$, having incurred additional costs of $\$ 81,293$ over the prior month.

- Transportation Services - this account was adjusted by -\$20,000 as we have completed a thorough reconciliation of all our transportation accounts. We are still experiencing a negative balance in our out-of-district transportation account (approximately $\$ 70,000$ ) however, this negative balance is offset by the surplus that we have in our in-district local transportation. As stated in previous reports, this positive balance was due to the reduction of our current fleet of buses as we were able to reconfigure the number of vehicles required to run the district.

Providing that our special education out-of-district account does not require additional funding, we anticipate the overall balance to remain intact through the end of the year.

- Out-of-District Tuition - this account is showing a negative balance - $\$ 513,245$. Over the prior month, the deficit in this account has increased by $\$ 63,398$ and includes anticipated additional costs in special education out-of-district tuition. A portion of the excess cost grant allocation was reduced (this was an internal reduction) by $\$ 29,644$ and the balance was due to tuition. The excess cost grant revenue has been applied to all appropriate accounts and included in this report.

SUPPLIES - the overall balance here is in a positive position showing a balance of $\$ 314,000$ increasing over the prior month by $\$ 173,768$.

- Electric - this account now shows a positive balance of $\$ 320,000$. Due to the increase in the Eversource energy supply rate, we are experiencing a windfall in credits from our virtual net metering project. This is a conservative estimate for now as there are a few variables that can affect this account. We will be keeping a close eye on this and will continue to keep the board apprised of changes that occur within our forecast.

## ALL OTHER OBJECTS

All other objects are currently in good standing and we will continue our account analysis throughout the year.

## EMERGENCY REPAIRS

The high school experienced water damage in several classrooms due to a frozen pipe that burst during a cold snap. The damage was extensive enough to require CIRMA to come in with an insurance adjuster. This claim has been filed and our portion of the deductible is $\$ 25,000$.

## REVENUE

The board of education received $\$ 6,714.13$ in tuition and $\$ 927.96$ in miscellaneous revenue.
