

May 5, 2020

Dear Parents and Staff,

Governor Lamont has officially closed all Connecticut schools for the remainder of the year. As our *Alternative Learning Plan* is well in place and continues to evolve, the staff and leadership team is committed to working with students and providing support as needed.

We will be sending further details out to you that relate to the handling of end-of-year district events (such as graduation), as well as other future district plans that extend into the summer (e.g., summer school). These are important to us but require additional planning under these unique circumstances.

Thank you and continue to stay well.

Dr. Lorrie Rodrigue, Superintendent
