

April 7, 2022

Dear Staff and Families,

Spring Break is upon us! If you and your family are traveling next week and would like a COVID test kit to test before returning to school, there are test kits available upon request in each of the school offices.

There will also be a free, walk-in COVID vaccine clinic for children of all ages at the Newtown Community Center from 3 - 7 pm on Monday, April 18th.

The Project COVID DeteCT program continues to provide weekly screening for any student or staff member who registers. If you are interested in registering, please use this link:

[School Testing Consent Form](#)

Most importantly, have a wonderful break! I hope that all of you find time to do the things that bring you joy. The local forecast is for temperatures in the 60's, so don't forget to get outside to enjoy the weather and all of the delights of the season.

Happy Spring,

Anne Dalton, BSN, RN
Newtown Health & Wellness Coordinator
