## July 2021

## Almost in First Grade

| Sunday | Monday | Tuesday | Wednesday | Thursday | Friday | Saturday |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  |  | Take 10 pennies. Put some in each hand. Show one hand to an adult and ask them to figure out how many pennies are hiding. Switch! | Keep track of the weather for one week. How many sunny days? How many rainy days? How many more sunny days than rainy days? | Toss 10 pennies. How many heads? How many tails? Do it again. Were your results the same or different? |
|  | Go to the grocery store. In your shopping cart, practice counting items. How many pieces of fruit? How many eggs in a carton? | Hop on your right foot and count how many hops you can do. Now try your left foot. On which foot could you hop longer? | Grab a handful of small objects. Guess how many there are. Count them. Were you close? | 8 <br> Use sidewalk chalk to write all the numbers (in order) that you can. | Write your name on a piece of paper. How many letters are there in your name? How many letters are there in the names of your whole family? | Walk around the house. How many steps does it take you to get around your house. Next try giant steps. Which used more steps? Why? |
| Read a counting book and then make one of your own. | How many jumping jacks can you do in one minute? Is that number more or less than 20? How do you know? | Make a picture using 2 circles, 3 triangles, and some rectangles. Explain how you made it to someone. | $14$ <br> Make some numbers or shapes out of play dough. | Count backwards from 10.... <br> 15... <br> 20.... <br> 25... | Weigh yourself today. Have another person in your house weigh themselves. Who weighs more? How do you know? | Find 12 small rocks. Put an equal number of rocks into 3 circles or bowls. How many rocks in each bowl? Now try 4 circles or bowls. |
| Look at your refrigerator. Find 3 items. Put them in order by weight. Start with the heaviest. Now try it with 3 toys. | Find 2 kinds of flowers. Draw a picture of your flowers. Think of 2 ways they are alike and 2 ways they are different. | Pour cereal into a bowl until the bottom of the bowl is covered. <br> Estimate how much is in the bowl. Count to check your estimate. | Collect some sticks and pebbles from your yard. Use them to make a pattern. | Count on from <br> 17.... <br> 35... <br> 8.... <br> 47... | Play with bubbles. How many can you blow in one minute? | Name 5 different places you can see numbers outside. Draw a picture of the places. |
| Set the table for dinner. How many plates do you need? How many forks? How many napkins? | Build something with 20 blocks or Legos. Can you draw a picture of it? | Draw and label a picture of your family from shortest to tallest. | Build a sandcastle. What shapes do you see? | Count the people that live in your house with you. How many hands is that in all? How many fingers? | Look at some of your toys. <br> Sort them into groups. How many are in each group? | Ask your family which food they like at a cookout. What was the favorite food? How many chose it? |

## August 2021

Almost in First Grade

| Sunday | Monday | Tuesday | Wednesday | Thursday | Friday | Saturday |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  |  |  |  |  |
| How many different kinds of flowers (or insects) can you find in your yard? Draw your favorite. | How many different groups of one-digit numbers will make this equation true? | Can you find 3 objects in your house that are circles? Draw a picture of them. | Count by tens to 100 . Count by twos to 20. Can you count backwards from 100 by tens?!? | Find 5 boxes in your kitchen cabinets. Line them up from tallest to shortest. | Start a collection of rocks or shells. Put them in order from smallest to largest. Find another way to sort them. | Use sidewalk chalk to draw as many shapes as you can. |
| Find 5 containers. Fill them with dirt or sand. Which container is the heaviest? The lightest? | Help a grown up cook or bake something. Talk about the measuring tools you are using. | Take a walk with an adult. Find different items in nature. Make a story problem about them. | How many tires are there on 2 tricycles? <br> How many tires are there on 3 bicycles? <br> How many tires are there on 5 unicycles? | Listen carefully to a song. Can you hear any patterns? | Read a book with a grown up. What math ideas can you find in this book? | What is your favorite color? Find 10 things in your house that are this color. |
| Go outside. Find ten things smaller than your hand. Find ten things bigger than you! | Build a ramp for your toy cars or a marble or small ball. How far did you car, marble, or ball go? | Go to the park. How many different shapes can you find? | Find a book. Estimate how many pages are in it. Now check. How close were you? | How many dark squares on a checkerboard? How many light (or red) squares? How many squares in all? | Find 2 leaves in your yard. Draw them. How are they the same? How are they different? | After dark, go outside with a grown up. How many stars can you count? |
| Draw a robot using only rectangles! | Go to the library and find a book about numbers or shapes...or both!! | Pick a number less than 10. Find that number of objects in your house. | There are 10 students on the school bus. 6 get off the bus. How many are still on the bus? Draw a picture. | Look out your window. What shapes can you see? Can you draw them? | If you had 5 ice pops and a friend gave you one more, how many ice pops do you have now? | Count how many times you can jump up and down in 15 seconds. |
| 10 is the answer. Can you think of 3 questions? | First Day of First Grade! |  |  |  |  |  |
